THE EX LOVE OF MY LIFE

(L'EX-FEMME DE MA VIE)

A FILM BY JOSIANE BALASKO

● *Tom and Nina haven't seen each other since their tumultuous break-up seven years earlier. One evening, he and Ariane, his fiancé, are dining in a local restaurant. Suddenly, Nina shows up, exhausted, without a penny in her pocket, seven and a half month pregnant, and dumped by the father of her future child. Nina has nowhere to go and Tom is forced to have her stay in his place.*

Troubles will soon come with Nina's cast of kooky friends, especially Marie Pierre, her very peculiar girlfriend, a psychiatric with unusual treatments...

● **Tom et Nina** sont divorcés depuis sept ans et n'ont eu aucun contact depuis. Or, un soir, alors que Tom et sa fiancée Ariane dînent dans un restaurant et parlent de leur prochain mariage, Nina ressurgit, épuisée, sans un sou, enceinte de sept mois et demi et plaquée par le père de son futur enfant. Elle n'a nulle part où aller, et Tom se trouve contraint de l'héberger, ce qui ne sera pas sans problèmes, car Nina a des amis un peu particuliers, spécialement Marie-Pierre, une psychiatre aux méthodes plutôt spéciales...
